

## **Scott Lake water is safe for drinking and cooking!**

**Scott Lake  
ID # 767876, Thurston County**

**August 27, 2019**

**Your water has been tested for bacteria and it is safe!**

What we have done:

- Water pressure was lost on Monday, August 26, 2019 while crews were installing a new connection.
- Repairs were made to resolve the leak.
- Bacterial water samples were taken and the results showed Scott Lake water is safe.

We have notified the State Department of Health that normal operations have been restored.
