

A monthly newsletter brought to you by Scott Lake Maintenance Company

November 2022 Events: www.Scottlake.net for all upcoming events

- ◆ **BINGO NIGHT** Saturday Nov 12th 6pm to 8pm, presented by: The **H.E.R.S. Club** Cards are \$10 which can be used on all games throughout the night.

May Your Family be Blessed during this Thanksgiving Weekend.

Water Committee

*Water valves originally planned to be installed in October are now planned for early November. This will require one day of water shutoff (typically a Wednesday) and about 2 days of a boil water notice after that while we wait for water quality test results. Water is always tested after a shut off.

*Some other work at the well house is being considered at the same time to minimize water interruptions to the community. This includes cleaning a hydropneumatics tank, replacing a valve, and adding calcium carbonate to the water treatment tanks. Plans are still in the works.

Finance Committee

The Finance Committee will be meeting this month to start working on the 2023 budget.

We hope to provide more details as we move forward in our discussions.

Please go to:

www.Scottlake.net

For Information
and a Profit & Loss Statement.

Parks and Recreations

Sunday between 8am and Noon the boys bathroom was vandalized again.

We will be meeting soon to start planning for next year. Volunteers are always welcome to join.

Please reach out to the Committee Chairperson

Marci.Simmons@Scottlake.net

Governance Committee

Diligent work is being done on updating our Bylaws. They were written in 1962 and haven't been updated since. While we don't know the exact date we will finish, we felt it's important to get awareness out to the community of the coming changes. Your vote will be needed for the adoption of the updated bylaws. The B.O.T.'s plan is to have multiple town hall meetings to discuss the details of the bylaw changes, answer questions and hear concerns. Keep an eye out for the notification of the townhall meetings. We will ensure that there are multiple meetings to accommodate your busy schedules. The meetings will be held in person and over Zoom.

Other Highlights and Important Information!

A recent examination of the Allen Creek by The Water District found that some residents have dumped grass clippings and other debris in the creek. This contributes significantly to flooding in our Community. **Do Not Dump anything in The Water Ways.*

**Please keep Fire lanes accessible through out the Community.*

Shoutout.. Thank You for the Month

Thank you to the **Governance Committee** (Mike, Alaine, Janis, Suzanne and Ben) that is working so hard and consistently to ensure our Community moves into the future with promise.

Special Meeting of:

THE SCOTT LAKE DRAINAGE DISTRICT

November 30th at 5 PM at The Community Center

Scott Lake Drainage District Residents:

Thurston County Commissioner Tye Menser and Public Works staff have graciously agreed to a public meeting with our Drainage District regarding the periodic flooding issues we have. We have flat ground so nothing is going to fully solve our flooding problem but there may be steps that can be taken to reduce the severity. We've worked with the Conservation District and County engineers for years to get professional recommendations but have yet to get anything actionable other than clearing out temporary blockages as soon as possible.

We view this as an opportunity to give the community a brief history of our efforts to date; hear any suggestions the County or other experts may have; and most importantly hear from our residents. At a minimum we hope everyone will walk away with a better understanding of the problem and the complexity of potential solutions. No decisions will be on the agenda – just trying to get our arms around the problem and potential solutions.

Again, we must be realistic when it comes to our flat ground but let's respectfully hear everyone's ***thoughts – there may be at least a partial solution we haven't thought of yet.***

Your Scott Lake Drainage District Commissioners
